RE: Final ISI Report-The Ursuline Preparatory School Ilford

Dear Parents/Guardians,

Following our recent report, we are pleased to share an overview of the key findings and outline our plans to further enhance the learning experience for all pupils at The Ursuline.

The report highlighted several strengths within our curriculum and teaching approaches, while also identifying areas for development. To ensure that all curriculum areas maintain a robust assessment focus, we will be working systematically through the recommended targets. This will allow us to *refine our assessment strategies in the following subject areas: Art, DT and Computing*, ensuring that we accurately track progress and support every child's learning journey.

As we move into the summer term, we will continue to prioritise challenge and high expectations across the core subjects—Mathematics, all areas of English, and Science. Our focus will be on ensuring that all children are *consistently challenged* at an appropriate level, helping them to develop their skills, deepen their understanding and achieve their full potential.

A copy of the final report has been sent via the communication sent with this letter. A copy of the report has also been published on the school website.

We appreciate your ongoing support and partnership in your child's education. If you have any questions or would like to discuss any aspect of the report or our plans further, please do not hesitate to contact me.

Yours sincerely,

Ms N Boyce
