apetito

WILTSHIRE  
EST. FARM 1991  
FOODS

*Delicious & nutritious food  
your children will love*

**At apetito we understand the importance of nutritionally balanced meals when supporting the growth of your child.**

All our recipes are developed by our experienced and talented Head Chef Phil in our Wiltshire kitchen and are designed by our dedicated in-house Dietitian Emily, to ensure our meals meet government nutritional guidelines.

Our food is frozen for freshness, locking in both nutrition and flavour! We take pride in going beyond the necessary requirements and regulations when it comes to food safety, with two state-of-the-art Laboratories at our site. Our positive-release policy allows us to analyse every meal we make, ensuring all our meals are as safe as possible for your children.

*"We believe it's important that children develop their taste palate whilst at school, which is why we create new meals with exciting flavour combinations to encourage everyone to try something new."*

Emily Stuart, apetito Dietitian

# Food to fuel your child

## In partnership

Our partnership extends to the service we provide your child and those looking after them. Your School has a dedicated Account Manager to ensure that if there's a question to answer, an additional need to cater for, or a special request to be fulfilled, we're here whenever they need us.

All our dishes are cooked with the utmost care by our team of award-winning qualified chefs, giving you peace of mind that your children are eating high quality, nutritious meals.

Our meals are designed by our in-house Dietitian to meet the nutritional needs of School children. You can be sure that every apetito meal tastes good, looks good and does good too!

We freeze our meals within 1 hour to guarantee their nutritional value. Unlike fresh food, this value doesn't deteriorate over time, giving your child the nutrition they need to grow and develop.

# True to our roots

Our exceptional quality food is made with the finest quality ingredients sourced from the finest suppliers.

All the ingredients that go into our meals are sourced with the highest ethical and sustainability practices. We ensure all of our dishes contain ingredients that you would find in your own home with our 'clean recipe policy'.

As proud supporters of the British food and farming industry, we responsibly source the majority of our ingredients from British and Irish Farms where possible.

*Lee Sheppard* Director of Corporate Affairs & Policy

*"We are proud to only work in partnership with people who share our commitment to improving the world we live in."*

# Safety First

Our food caters for all allergens and intolerances. To ensure full transparency, all allergens, ingredients and nutritional information of our meals can be accessed via our Nutridata app, giving you peace of mind that your child is tucking into safe and tasty meals.

Everything we cook is lab tested for over 30 harmful bacteria, as the safety of your child is paramount to us.

All ingredients and dishes are x-rayed and metal detected to protect your children against unwanted contamination.

Any dishes in our Free From range are tested for presence of unwanted allergens, to keep your child safe.

For more information on how we look after your children, do not hesitate to contact us:
